**Designed for Adventure -  
Built with Style**

*The Australian designed and built Golf Caravans have just released the all new Golf Tourer hard top caravan range which is an all new series of light adventure touring vans. Golf Caravans have always had a strong tradition of building stylish modern caravans and the all new Golf Tourer range is no exception. The Tourer is available in a variety of layouts but the first vans to be released will be the 556, 577, 607, 650 and the 650-3.*

# TOURER

## Range

These vans have been designed for the modern traveling family looking to do the big lap around Australia. Unlike many other family vans Golf has on offer the Tourer does not have canvas bed ends which offers greater security and insulation when setting up for extended periods. The 577 has been designed with an east west bed configuration and fitted to a single axle chassis while the 650 offers a large front island bed and is sitting atop a tandem axle chassis.

Both layouts include a full en-suite large galley style kitchen cafe dinette seating bunk beds and plenty of internal and external storage while still having the ability to sleep up to 7 people.

The Golf Tourer has been designed to include an extremely efficient 12 volt power system which includes 2 x 135w solar panels, 2 house batteries and the Projecta PM300 power management system which is a full set and forget management system. Including centralised wiring 35A power supply and 20A charger and remote L.E.D display to keep you informed at all times. The internal digital display features water level and sensor inputs switches for water pump night mode buttons DC/DC charging system to charge the van while you drive and 30A PWM solar. This smart efficient system will allow you to spend more time free camping and enjoying the great outdoors.

With the combination of the comfortable layouts stylish design and large range of standard accessories the Golf Tourer is the ultimate light adventure touring van to get out and travel Australia in style.
